Precision Assembly in the USA with Quality Components

TWO YEAR, UNLIMITED MILEAGE WARRANTY

All Edelbrock crate engines come with an exclusive 24 month, unlimited mileage insured warranty. Edelbrock's crate engine warranty program is administered through Edelbrock Corporation. One of the great features of this warranty is your right to choose a service facility. Upon Edelbrock's approval, you have the flexibility of choosing any ASE-certified facility nationwide to take care of your warranty claims. Whether you're close to home or on a cross country cruise, we've got you covered. **Important Note: To activate warranty service, the warranty card included with the engine must be completed and submitted to Edelbrock within thirty (30) days of purchase.**

FULLY ASSEMBLED CRATE ENGINES

Edelbrock offers a vast selection of **100% brand new**, fully-assembled performance crate engines for small-block Chevy, big-block Chevy and small-block Ford. All Edelbrock crate engines feature the highest quality components and are assembled with Edelbrock's Total Power Package(r) for dyno-proven and reliable performance, right-out-of-the-crate. In fact, they're so reliable we've included a 2-year/Unlimited mileage warranty on all applications.

SMALL-BLOCK FORD

Assembled with a brand new Ford Racing BOSS 347 short block (8.2" deck height), these Ford crate engines are available in four unique performance levels, including 430 HP, 438 HP, 449 HP, and 503 HP. All include the BOSS block, forged steel crankshaft, forged pistons, roller rocker arms and Rollin' Thunder Camshaft. A host of options are available, including cylinder heads, single carb or dual quad, EFI, oil pan configuration, water pump choice, finish option and a whole lot more. ATTENTION!!! 427 cid BOSS crate engine package coming soon.

SMALL-BLOCK CHEVY

With 11-different horsepower and torque combinations to choose from, Edelbrock offers a variety of small-block Chevy performance crate engine packages. **Performer Series** engines are available from 310 HP - to - 380 HP and feature brand new GM Goodwrench short blocks with 4-bolt mains. **RPM Series** applications are a step-up in performance and are available in packages from 410 HP - 507 HP. RPM engines feature a brand-new GM ZZ short block assembly with forged crankshaft, powder metal connecting rods and hypereutectic pistons. Performer and RPM small-block Chevy packages are available with a variety of options. Check listings for complete details.

BIG-BLOCK CHEVY

Edelbrock's 555 cid Big-blocks are as close to a true custom motor that you can buy. Assembled by Pat Musi Performance, these motors are hand-built with a Dart Big-M block, forged steel crankshaft and rods, forged pistons, and topped off with Edelbrock Total Power Package RPM XT cylinder heads, Rollin' Thunder camshaft and choice of 800cfm Thunder Series carburetor (676 HP) or Pro-Flo2 EFI system (697 HP).

ORDER AS-CAST, POLISHED OR ENDURASHINE FINISHED EDELBROCK COMPONENTS

Edelbrock understands that every customer wants choices. This is why Edelbrock offers our customers the option of having their crate engine built with our aluminum products in the traditional as-cast finish or with a show-quality polished finish. Order the "Polished Package" and you'll get an engine with polished heads, intake manifold and water pump if applicable. Two models are also offered with our EnduraShine finish on the manifold, carb, valve covers and air cleaner for a brilliant shine that you have to see to believe!
